Description

EVOLVE Gladiator RG250 is intended for all those who expect that their mobile phone will last more than usual telephones available on the market. No matter if you use it in nature, at sports, at the construction, at the workshop or in the desert, it will not disappoint you! Extremely firm rubberized body make from it a reliable helper for everyday intensive working. And at the same time it offers you the possibility to have two active SIM cards in the telephone. The water-resistance is certified in compliance with the norm IP67 - it is resistant against dust and it lasts immersed to water for 30 minutes time in the depth of 1 meter. The high capacity battery ensures enough energy for the long telephone endurance for one charging.

Package includes
