- Call duration: ca 510 minutes
- Stand-by mode: ca 170 hours
- Dimensions: 125 x 57 x 23 mm
- Weight: 166 grams (with the battery)

### Description

Everything that you've ever expected from the mobile phone is to be found in just one device. The maximum equipment, the maximum resistance and the outdoor design make from this phone the universal solution usable at home, in the workrooms, at the constructions sites, in the difficult terrain, when it's very cold or on the contrary at very high temperatures and humidity. The phone doesn't mind water, mud, snow, high or low temperatures, dust neither the harsh treatment. You can make a phone call from anywhere where is the GSM net coverage on one from the four supported frequencies, which means almost from all over the world.

The telephone is equipped with the walkie-talkie function and it is compatible with the usual walkie-talkies. The water-resistance is certified in compliance with the norm IP67 – it is resistant against the dust entry and it stays immersed into water in the depth of 1 meter for the 30 minutes time.

### Walkie-talkie

- Supports call between the two telephones EVOLVE Gladiator RG400 and also the call EVOLVE Gladiator RG400 + classic walkie-talkie in the civic zone
- 8 frequencies pre-set
- Option of reception on the background
- Easy volume regulation
- Range up to 0.5 km depending on the surroundings and the terrain
