Quad Core processor
4.5 IPS qHD display
HD video recording
8.0 MPix foto
GPS, WiFi, Bluetooth
Android 4.2

EVOLVEO XtraPhone 4.5 Q4

Sufficient power is ensured by a powerful quad core processor and 1GB Ram. 3G fast data transfers or 8mpx camera with autofocus, flash, HDR and panorama feature are present as well.

When travelling, you will surely also appreciate WiFi hotspot feature, which allows you to setup a wireless WiFi network using your phone. Then you will be able to share your mobile phone Internet access with other devices, such as your laptop.

Quad Core power

Enjoy fast web browsing, most computing power demanding games, multitasking and possibility to download large files thanks to the powerful Quad Core processor. Each core operates at 1.5 GHz frequency. It utilizes a modern ARM Cortex 7 architecture, which is optimized for a maximum performance with low power consumption, where each of the cores is only being used as long as it is needed for current operation.

Ips screen

The large qHD screen has 960 x 530 resolution and utilizes the IPS technology for crystal clear image, lifelike colors and wide viewing angles.

Perfect design

Slim body with slightly rubber coated back cover piece sits very comfortably in your palm. Additionally, the package also includes a back White Pearl cover for free and you can adjust your phone to your liking.

Specification

- processor Quad Core 1.5 GHz
- graphical chip PowerVR SGX 544MP
- operating system Android 4.2 Jelly Bean
- 4.5" capacitive touchscreen
- resolution qHD 960 * 540 pixels
- IPS display with 16.7 million colors and wide angle of view
