Octa-Core 64-bit 2.0 GHz
Waterproof/Shockproof
IPS 5.7" HD+
6 500 mAh battery

EVOLVEO StrongPhone G7

POWERFUL 8-CORE RUGGED SMARTPHONE WITH EXTREMELY LARGE BATTERY

The EVOLVEO StrongPhone G7 has been designed for those who need a phone that can handle even rough treatment and doesn't mind water, dust or mud. Tuned Android 9.0 with a large 6,500 mAh battery ensures trouble-free operation for up to five days, and the powerful 8-core processor can handle all your requirements smoothly and stably.

Large wide-screen 5.7" HD+ display

StrongPhone G7 is equipped with a wide-screen 5.7" 18:9 display with increased resistance to deep scratches and cracks. You'll enjoy its size when watching movies or playing your favourite games.

Extreme battery capacity

The 6,500 mAh battery provides up to five days of operation, allowing you to use your phone on the go without charging every day. But if you need to charge it, you can do it to 90 % of the capacity in less than three hours thanks to the modern USB-C connector and fast charging support.

Powerful Octa Core processor and plenty of room for your applications

The 64-bit 2.0 GHz 8-core processor, the powerful ARM Mali-G71 MP2 graphics processor, and 3 GB RAM give you plenty of power to run multiple tasks at once. The MediaTek CorePilot technology provides the full performance of eight CPU cores. These eight CPU cores can be managed individually, turning them on and off as your needs demand, preventing battery drain. The internal memory of 32 GB provides enough space for all your favourite applications and maps.

Specifications

- shock and vibration resistant with IP68 certification
- Octa-Core 64-bit 2.0 GHz CPU
- IPS 5.7" HD+ 1440 x 720 display with automatic brightness control
- 6,500 mAh integrated high capacity battery
- Wireless charging support
- Fingerprints reader
- Android 9.0 Pie operating system
- 3 GB RAM
- Internal memory of 32 GB, can be easily extended with microSDHC/SDXC card with capacity up to 128 GB.
- Hybrid Dual SIM mode - two active SIM cards in one phone, nano SIM/nano SIM or nano SIM/microSDHC card
