| Packaging composition version | PKG-CAE-Panthera-BK-3-186                                                                                                                                                                                                                                                                           |

## 3. Identification and description of the packaging

| Packaging level     | Packaging type        | Number of pcs | Dimensions cm      | Volume cm <sup>3</sup> | Gross kg | Packaging mass |
|---------------------|-----------------------|---------------|--------------------|------------------------|----------|----------------|
| Sales packaging     | Jednotka včetně obalu | 1             | 44,0 × 27,5 × 45,0 | 54 450,0               | 5,430    | 892 g          |
| Transport packaging |                       | 1             | × ×                | 0,0                    |          | 0 g            |

• Brief description: the sales unit contains paper/cardboard and plastic packaging elements; the transport carton is used for group packaging of 1 pcs of product.

## 4. Material composition of the packaging

| Level           | Material / component | Mass  |
|-----------------|----------------------|-------|
| Sales packaging | Vlnitá lepenka       | 753 g |
| Sales packaging | MP - PS              | 87 g  |
| Sales packaging | Papír                | 40 g  |

|                 |         |      |
|-----------------|---------|------|
| Sales packaging | MP - PE | 12 g |
|-----------------|---------|------|

## 5. Summary of materials per one sales unit

| Material                                          | Mass per 1 pc | Share   |
|---------------------------------------------------|---------------|---------|
| Vlnitá lepenka                                    | 753,0 g       | 84,4 %  |
| MP - PS                                           | 87,0 g        | 9,8 %   |
| Papír                                             | 40,0 g        | 4,5 %   |
| MP - PE                                           | 12,0 g        | 1,3 %   |
| Total incl. proportional part of transport carton | 892,0 g       | 100,0 % |
| Material group                                    | Mass per 1 pc | Share   |
| Paper / cardboard                                 | 793,0 g       | 88,9 %  |
| Plastic                                           | 99,0 g        | 11,1 %  |
| Total                                             | 892,0 g       | 100,0 % |

- The transport carton is proportionally allocated to 1 pcs of product: 0,0 g/pc.

## 6. Purpose of use of the packaging

- protection of the product during transport, storage and handling
- safe delivery of the product to the end user
- identification, labelling and presentation of the product
- grouping of multiple product units in the transport carton

## 7. Declaration of conformity

- The packaging composition identified above complies with the applicable requirements of Regulation (EU) 2025/40 on packaging and packaging waste.
- The packaging has been assessed using the internal production control procedure according to Annex VII of Regulation (EU) 2025/40.
- The technical documentation contains a general description of the packaging, material composition, mass calculations, recyclability assessment, minimisation assessment and available supplier documentation.
- Supplier material declarations, test reports and other supporting documents are a non-public part of the manufacturer's technical documentation and will be provided to competent market surveillance authorities upon justified request.

## 8. Applied legislation, standards and technical specifications

| Document type                     | Designation / description                                                                              |
|-----------------------------------|--------------------------------------------------------------------------------------------------------|
| Legal act                         | Regulation (EU) 2025/40 of the European Parliament and of the Council on packaging and packaging waste |
| Internal technical specification  | PKG-SPEC-CAE-Panthera-BK-3-186 – interní specifikace obalové skladby                                   |
| Mass calculation                  | PKG-MASS-CAE-Panthera-BK-3-186 – výpočet hmotnosti obalů                                               |
| Packaging minimisation assessment | PKG-MIN-CAE-Panthera-BK-3-186 – posouzení minimalizace obalu                                           |

|                          |                                                                                                |
|--------------------------|------------------------------------------------------------------------------------------------|
| Recyclability assessment | PKG-REC-CAE-Panthera-BK-3-186 – posouzení recyklovatelnosti                                    |
| Supplier documentation   | SUP-MAT-DECL – supplier material declarations, non-public annex to the technical documentation |

## 9. Notified body

- No notified body was used. The conformity assessment was performed using the internal production control procedure according to Annex VII of Regulation (EU) 2025/40.

## 10. Technical documentation and retention of supporting documents

- The technical documentation for the packaging has been prepared and is retained by the manufacturer.
- The technical documentation contains non-public supporting documents from suppliers of packaging materials, material specifications, test reports where applicable and internal conformity assessments.
- The documentation will be retained for the period required by legal regulations and will be presented to competent market surveillance authorities upon justified request.

## 11. Signature
