| Packaging composition version | PKG-SED-DPAHD10-B-313                                                                                                                                                                                                                                                                             |

## 3. Identification and description of the packaging

| Packaging level     | Packaging type        | Number of pcs | Dimensions cm      | Volume cm <sup>3</sup> | Gross kg | Packaging mass |
|---------------------|-----------------------|---------------|--------------------|------------------------|----------|----------------|
| Sales packaging     | Jednotka včetně obalu | 1             | 28,5 × 9,5 × 21,8  | 5 902,4                | 1,562    | 418 g          |
| Transport packaging | Kartón včetně obalu   | 10            | 50,0 × 31,0 × 45,0 | 69 750,0               | 16,400   | 700 g          |

• Brief description: the sales unit contains paper/cardboard and plastic packaging elements; the transport carton is used for group packaging of 10 pcs of product.

## 4. Material composition of the packaging

| Level           | Material / component | Mass  |
|-----------------|----------------------|-------|
| Sales packaging | Papír                | 346 g |
| Sales packaging | MP - PE              | 52 g  |
| Sales packaging | MP - PP              | 10 g  |

|                     |                |       |
|---------------------|----------------|-------|
| Sales packaging     | MP - PE        | 10 g  |
| Transport packaging | Vlnitá lepenka | 700 g |

## 5. Summary of materials per one sales unit

| Material                                          | Mass per 1 pc | Share   |
|---------------------------------------------------|---------------|---------|
| Papír                                             | 346,0 g       | 70,9 %  |
| MP - PE                                           | 62,0 g        | 12,7 %  |
| MP - PP                                           | 10,0 g        | 2,0 %   |
| Vlnitá lepenka                                    | 70,0 g        | 14,3 %  |
| Total incl. proportional part of transport carton | 488,0 g       | 100,0 % |
| Material group                                    | Mass per 1 pc | Share   |
| Paper / cardboard                                 | 416,0 g       | 85,2 %  |
| Plastic                                           | 72,0 g        | 14,8 %  |
| Total                                             | 488,0 g       | 100,0 % |

- The transport carton is proportionally allocated to 10 pcs of product: 70,0 g/pc.

## 6. Purpose of use of the packaging

- protection of the product during transport, storage and handling
- safe delivery of the product to the end user
- identification, labelling and presentation of the product
- grouping of multiple product units in the transport carton

## 7. Declaration of conformity

- The packaging composition identified above complies with the applicable requirements of Regulation (EU) 2025/40 on packaging and packaging waste.
- The packaging has been assessed using the internal production control procedure according to Annex VII of Regulation (EU) 2025/40.
- The technical documentation contains a general description of the packaging, material composition, mass calculations, recyclability assessment, minimisation assessment and available supplier documentation.
- Supplier material declarations, test reports and other supporting documents are a non-public part of the manufacturer's technical documentation and will be provided to competent market surveillance authorities upon justified request.

## 8. Applied legislation, standards and technical specifications

| Document type                     | Designation / description                                                                              |
|-----------------------------------|--------------------------------------------------------------------------------------------------------|
| Legal act                         | Regulation (EU) 2025/40 of the European Parliament and of the Council on packaging and packaging waste |
| Internal technical specification  | PKG-SPEC-SED-DPAHD10-B-313 – interní specifikace obalové skladby                                       |
| Mass calculation                  | PKG-MASS-SED-DPAHD10-B-313 – výpočet hmotnosti obalů                                                   |
| Packaging minimisation assessment | PKG-MIN-SED-DPAHD10-B-313 – posouzení                                                                  |

|                          |                                                                                                |
|--------------------------|------------------------------------------------------------------------------------------------|
|                          | minimalizace obalu                                                                             |
| Recyclability assessment | PKG-REC-SED-DPAHD10-B-313 – posouzení recyklovatelnosti                                        |
| Supplier documentation   | SUP-MAT-DECL – supplier material declarations, non-public annex to the technical documentation |

## 9. Notified body

• No notified body was used. The conformity assessment was performed using the internal production control procedure according to Annex VII of Regulation (EU) 2025/40.

## 10. Technical documentation and retention of supporting documents

- The technical documentation for the packaging has been prepared and is retained by the manufacturer.
- The technical documentation contains non-public supporting documents from suppliers of packaging materials, material specifications, test reports where applicable and internal conformity assessments.
- The documentation will be retained for the period required by legal regulations and will be presented to competent market surveillance authorities upon justified request.

## 11. Signature
