3G, GPS, WiFi and WiFi HotSpot

EVOLVEO StrongPhone X4

Waterproof and rugged Android Smartphone with a button keypad

This phone is ideal for those who prefer the classic keypad and yet still want to take advantage of the touch screen Android Smartphone - all of this can be found in a small, lightweight, powerful, waterproof and rugged telephone.

Maximum durability and water resistance

Water resistance is certified according to the IP68 norm. The phone is resistant to shock, vibration, dusty environments, as well as sand. Both sides are also protected by stylish metal braces. It features a „USB cap-less“ waterproof micro USB plug in making your connection to a charger or a computer quick and easy.

Internet - via 3G or WiFi

3G fast data transfer is supported as a matter of course. This Smartphone is the center of your digital travelling needs with a WiFi HotSpot feature allowing you to setup a wireless WiFi network around your phone.

Replacable battery

The combination of the high-capacity 1 950 mAh battery and the 2.4“ screen provides you with extreme battery life and you will not be limited when using your rugged phone.

Keypad and dedicated button

The phone is equipped with a classic button keypad which enables quick and easy typing. One of the buttons on the side of the phone is programmable allowing you to launch your favourite application.
