MULTIMEDIA PLAYER WITH 4K ULTRA HD AND HDR SUPPORT

Powerful multimedia center for home entertainment that brings online entertainment to your living room. Use your favourite Android applications such as Google Chrome Internet Browser, Spotify, Deezer, Kodi or thousands of games from Google Play on your television.

Quad Core procesor

Quad-Core 2.0 GHz 64bit processor together with Quint-Core ARM Mali-450 graphics processor and 2GB RAM provide plenty of power for playing the most demanding games and watching 4K videos. New version of the operating system Android 6.0. ensures smooth running of all processors. Connect an external storage with movies, music or pictures, such as USB flashdrive or external portable hard drive.

Ultra HD 4K and HDR support

Multimedia center supports HDR10 (High-Dynamic-Range video) and HLD (Hybrid-Log Gamma) video formats and a new VP9 video codec. The device also supports hardware decoding for video playback in high definition Ultra HD 4K2K resolution, the new compression format H.265/HEVC up to 60 fps and HDMI 2.0 video output.
